The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/664,105	Applicant(s) GLADYSZ ET AL.	
	Examiner KARL J. PUTTLITZ	Art Unit 1621	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The rejection under section 103 over Wende is withdrawn in view Applicant's remarks. The rejection under section 1034 is maintained over Curran, below:

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4, 6-8, 10-25, 27, 29-72 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wende et al., J. Am. Chem. Soc. 2001, 123, 11490-11491 (Wende) or Curran et al., Synlett 2001, No. 9, 1488-1496 (Curran).

Curran teaches fluororous solid phase extractions without a fluororous environment, see pages 1491+. Although the references may not explicitly teach changing at least one reaction condition, the references teach extraction of the solid phase, which reads on "adding an additive", and thus, renders the instant claims prima facie obvious.

The claims do not clearly require a chemical reaction. The terms "form at least one product" or "transformed" could mean transforming or forming a purified or isolated product, as conducted by the solid phase extraction of Curran. If the claims were amended to clearly require a chemical reaction, or that the product is a different chemical compound than the chemical reactant and the fluororous compound, the

rejection would be withdrawn. Again, the process of Curran can be predictably applied to other fluorous compounds and reactants recited in the claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karl J. Puttlitz whose telephone number is (571) 272-0645. The examiner can normally be reached on Monday to Friday from 9 a.m. to 5 p.m.
